

Report on Programming Assignment 2

Computer Graphics I

Varun Kumar Bejjenki (02070487)

About the code:

- Number of points through a slider is implemented
- Animation speed through a slider is implemented
- View port size through a slider
- Color through Color picker is implemented
- Buttons to perform specific actions for different elements
- Display status as processing is visible

Issues Faced:

As I'm a newbie to this Java Script, faced multiple error issues and also faced issues during styling such as color coding. But surfing online helped me to improve my knowledge in this language.

Topics Explored:

- 1.In depth about Java script.
- 2.Learned to implement color coding.
- 3.Learned to implement Sliders for multiple elements in the assignment.
